

Electronic Visit Verification (EVV)

A smartphone screen showing the Time4Care mobile app login interface. The status bar at the top shows the time 9:46 and signal icons. The app header includes 'Time4Care mobile app' and 'public partnerships' with the PPL logo. There are input fields for 'Username' and 'Password', a 'Log in' button, and links for 'Don't have an account? Sign Up' and 'Forgot your username or password?'. The version 'Version 8.9' is at the bottom.

Version 8.9

Electronic Visit Verification (EVV) is required by the 21st Century Cures Act for all non-live in attendants providing personal care or respite services.

If you do not live with the person you care for:

- ☒ You must use the Time4Care™ mobile app or IVR (phone system) for every shift.
- ☒ Turn on GPS when clocking in and out. You can turn GPS off during the shift.

Please note:

- If GPS is turned off, the attendant will be marked as not following the rules.
- Repeated issues could result in the consumer losing the self-direction option.
